## SUMMARY

Business Information Systems student at Politeknik Negeri Malang (Polinema) with a knack for bridging code and design. Experienced in building robust web applications with Laravel and automating workflows using n8n. Currently active as a Freelance Designer, crafting visual identities for brands like Harmoniafit and Herbigreen. Passionate about solving problems through clean code and compelling visuals.

## EXPERIENCE

### WEB DEVELOPER & UI/UX INTERN Ruvodo (Subsidiary of PT Utero Indonesia) |

September 2023 - January 2024

- *Web Development:* Developed a company profile website using WordPress mirroring the parent company's standard, and revised client websites to meet functional requirements.
- *UI/UX Design:* Designed user-friendly interfaces (UI) and experiences (UX) for internal mobile applications using prototyping tools.
- *Business Intelligence:* Formulated business ideas and presented project prototypes to stakeholders, successfully demonstrating value for potential investment.

### FREELANCE CREATIVE & WEB SUPPORT Self-Employed (Remote) | 2025 - Present

- *Content Management:* Managed Herbigreen's CMS to oversee product updates and ensure visual consistency between social media and the website.
- *Visual Identity:* Crafted visual identities and social media assets for clients like Harmoniafit and Herbigreen, boosting brand engagement.
- *Design Execution:* Translating client briefs into creative visual concepts using Adobe Photoshop and AI tools.

## PROJECT

### MEDIKA MULIA - CLINIC MANAGEMENT SYSTEM Role: Fullstack Developer

- Revitalized a legacy clinical system using Laravel 10 and Bootstrap 5.
- Fixed critical database migrations and optimized asset storage linking for seamless deployment.
- Implemented Role-Based Access Control (RBAC) for Admins, Doctors, and Patients.

### SMART RECEIPT TRACKER (AUTOMATION) Role: Automation Engineer

- *Developing an automated expense tracking workflow using n8n.*
- *Integrating OCR technology to scan receipts and sync data automatically to Telegram and Google Sheets.*
